

Pick a light and dark fabric.

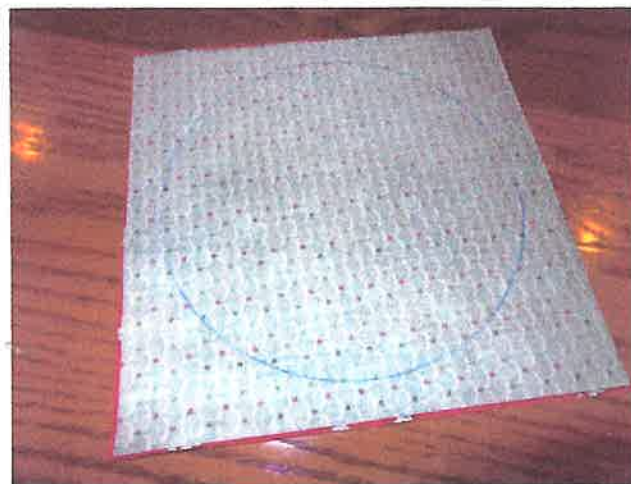

- Use something round to use as a template.

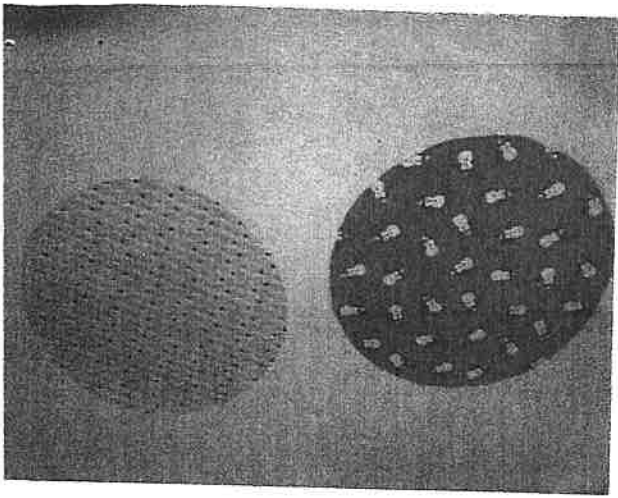

A pan lid, plate, plastic lid will work well (7½" diameter)

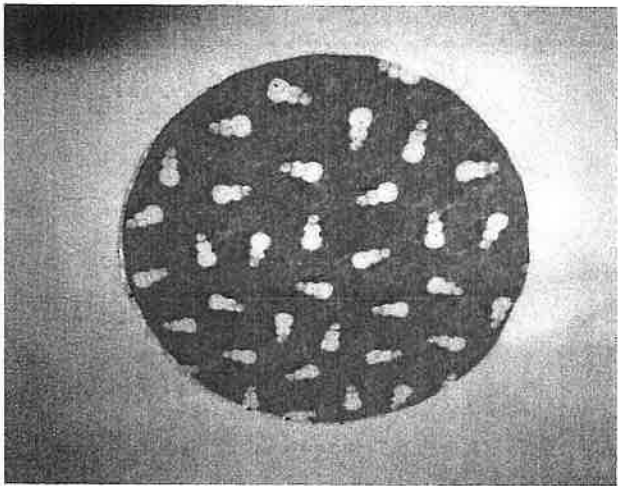

Place the template on the fabrics.

Trace around template and cut.

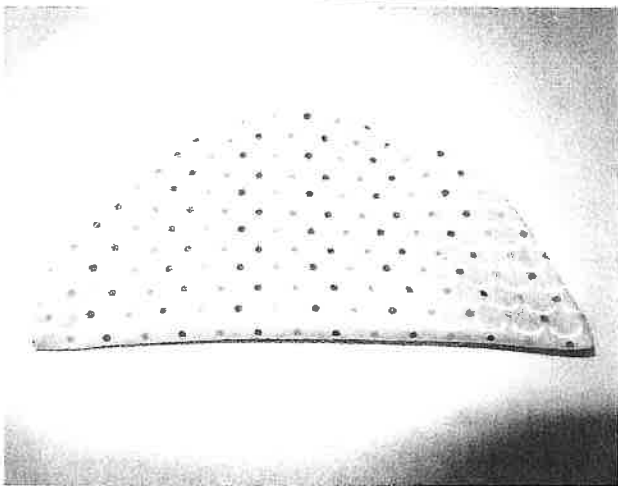

Place the circles right sides together.

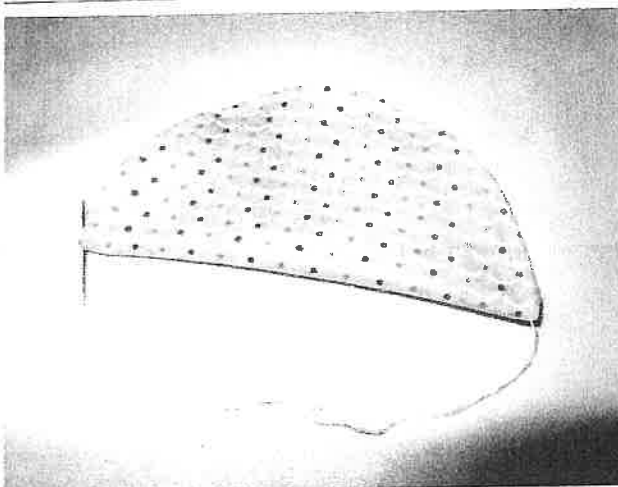

Sew around, using a $\frac{1}{4}$ " seam allowance. Leave a 2" space. Turn inside out - get it rounded.

Press. Turn open spot under and top stitch.

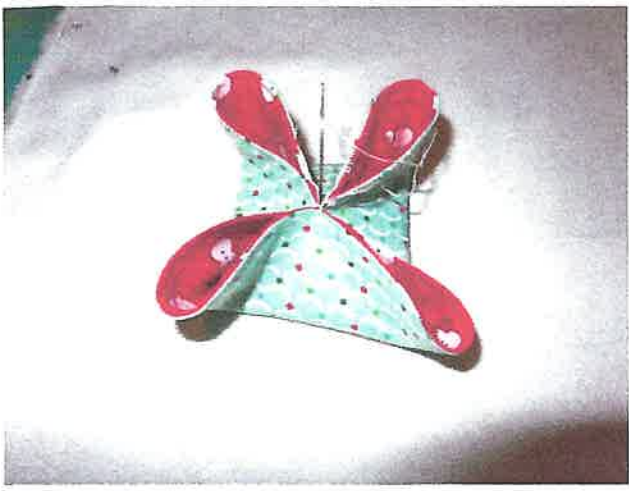

Decide which fabric you want on the outside ~ that will be the fabric on the inside when you fold.

Fold fabric as pictured.

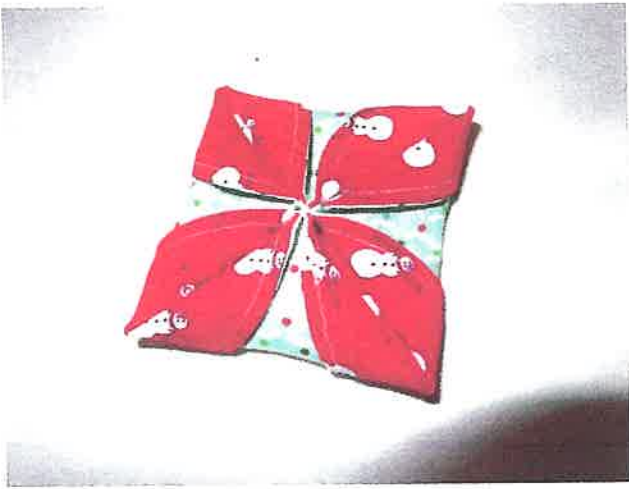

At both folds, put needle on fold ^{and} then do the same on the other fold.

Pull it up ^{and} sew it together. Fold it again as before and do the same - sew it together.

It will now look like this.
Now, flatten it out.

Then turn each corner
inside - out

You may put a button in
the middle to hide the center
threads.

Use gold string for a tie.
